EVACUATION: When the ALARM SIREN sounds, evacuate the buildings through the first safe exit and assemble on the far side of the OVAL (Assembly Point 1) or the East end of the Car Park (Assembly Point 2). The roll will be marked and the teacher will provide further instructions. Should there be a need to evacuate the school grounds, move via the sidewalk, to the vacant MITRE 10 car park or BPACC as directed by the Incident Controller.

CONTAINMENT/LOCK-DOWN: When the teacher announces a Lock-Down or Containment situation, students need to move under their desks and quietly await further instructions from their teachers. If advised, students may be required to assemble at the Shelter In-Place Point (S).

Preschool Assistant to check School Toilet Block.
